

INDIPENDENT CINEMATOGRAPHY & OIL RESEARCHES IN SICILY

“Malastrada Film” and “Comitato per le Energie Rinnovabili e contro le Trivellazioni Gas-Petrolifere in Sicilia” , settled in Noto (SR), in collaboration with:

produzionidalbasso.com/,

arcoiris.tv/, il mensile Casablanca, universo.tv, A.R.C.I./

www.siciliantagonista.org

make a documentary film entitled:

“13 variazioni su un tema barocco: ballata ai petrolieri del Val di Noto” .

After Totò Cuffaro’s re-election, many Sicilian people are going to face a difficult situation, trying to defend the area from the oil industrialization. In fact, this would be against the efforts which have been done to make Sicily develop in a ecological way.

For this reason, the case of oil well drilling in Val di Noto is emblematic.

During 2004 Regione Sicilia, through its Industry Councillor Marina Noè, allowed 4 important oil industries (the American Panther Corporation and 3 Italian industries: ENI, SARCIS and EDISON) to do oil wells in Sicily, in the area of Val di Noto, well known for having 10 sites belonging to the World Heritage List of UNESCO.

This documentary film wants to tell what have been happening in the last 2 years.

2 years of struggles.

Because we strongly want this Heritage to be of everyone, not just of few...

“Malastrada Film” has decided a new way to financing the film: everyone can do it, just buying a copy of this DVD in the website produzionidalbasso.com.

It is easy: go to the website directly through the link below:

http://www.produzionidalbasso.com/italy/pdb_116.html and book your copy!

When the amount of 500 copies will be sold you will receive your own copy.

It is simple and you can have a look on how many DVDs have already been sold at any time.

This is a new way for the Independent Film Production, that can finance these kind of works without censoring and, above all, far from the big Film Industry and Pubic Television.

Every citizen from all over Italy will have the chance to be a Co-producer of a movie that will be published by licence of “Creative Commons”: in this way it will circulate freely.

The fundraising lasts from 23rd June until 7th July.
