

A “space for living” @ Casa delle donne di Milano (Women’s House - Milan)

Casa delle donne di Milano launches a challenge: create a place where all women are welcome, a “space for living”.

Not only a cafeteria but a place where we wish to do exhibitions, performances, gatherings, parties, workshops and so much more. Such a place is missing right now in the former school building on number 8 of via Marsala (Moscova tube station) that has been granted to us from the municipality of Milan.

Construction work is currently being implemented: the renovation project involves the demolition of walls, the opening of an exit to the inner courtyard and the furnishing of a kitchen-workshop. We need a bar counter, desks, chairs, lights, kitchenware, hanging devices for painting exhibitions, a stage and the courtyard’s furnishings.

We want women’s talents to express themselves in all of their facets!

Some of the work is been made in-house, like the beautiful floor. We have actively looked for support and have been granted contributions from two Italian Foundations. Nonetheless we need further funds and we aim to obtain these funds through a crowdfunding campaign: we need your help in order to complete and furnish our “space for living”.

Total cost of the project: euro 125,000
Granted contributions: Fondazione Cariplo euro 70,000
Fondazione 7 Novembre euro 15,000
Funds still to be obtained: euro 40,000

All willing donors will get a “thank you” mention on our website. There will be special rewards as well. Will you give us a hand? Every donation is essential to accomplish our project!

Rewards
